Skills

➤ Programming Junior Skills:
  JAVA 8 and above , Android, **Spring**, Hibernate, **MySQL**, SQLite, HTML5, ThymeLeaf, REST, **GWT**, Mongo DB, CSS, Maven, Git, Gradle

➤ Programming tools:
  Intellij, Android Studio, Rabbit, Postman, Unix shell;

➤ Programming Basics:
  C++, C#, PHP, Wordpress, Javascript;

➤ Graphics: **3D MAX**, **Photoshop**;

➤ OS I work on:
  Windows, Linux;

➤ Soft skills:
  ability to work under the time pressure, involvement, **creative problem solving**, team work, **quick knowledge taker**;

  🔲 FRIS   report is available

Foreign languages

➤ English – B2/C1
➤ German – A1/A2

About me

I am **ambitious** and **highly motivated** to start a career in IT field prepared for internship and/or remote/ full time work. My goal is to be a **valuable team member** in a **long - term collaboration** that has a real impact in creating software which provide innovative solutions.
    Others describe me as a **flexible** person - easy to adapt to new situations.
I am **hard working** with a **positive attitude** and willingness to **learn** and to gain **experience**. I find myself as a **quick knowledge taker** and **creative person** with a hint of **empathy**. I am open to offer my support according to my experience in fields of design, business, production and customer service, which may be helpful when creating **user friendly software**.
